His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

#### SPEECH FROM THE THRONE

Mr. Speaker and Members of the Legislative Assembly:

I am pleased to welcome you to the Third Session of the Ninth Legislature of the Province of Alberta.

Since the last meeting of the Legislature, the Assembly has lost the services of a widely known and highly respected member, in the death of David Milwyn Duggan. Mr. Duggan served this House continuously as a Member for sixteen years. His zeal and sincerity in the discharge of his public duties, together with his marked ability and excellent qualities had won for him a high place in the public regard. His loss will be keenly felt by this Assembly and the City of Edmonton, as well as by the people of this Province.

The successful prosecution of the war continues to be the major issue requiring the wholehearted support of every citizen of the Province.

My Government will continue to do all in its power to hasten a victorious peace and to this end will co-operate with other Governments in all matters affecting the prosecution of the war.

The phenomenal development within the Province during the past year has thoroughly justified the faith of my Government in the strategic importance which Alberta now occupies in world affairs and in the rapidly expanding contribution being made to the cause of freedom.

My Government has been pleased to make greatly increased appropriations for the extension and improvement of transportation and communication facilities in order to give every possible assistance to the Armed Forces of Canada and of the United States.

Every effort will also be made to preserve existing surfaced highways from deterioration through lack of necessary materials, and provision will be made for the further improvement of other main and marketing highways throughout the Province.

My Government intends to continue to press vigorously for the extension of the boundaries of Alberta in order that full advantage might be taken immediately in the development of the rich mineral area of the North so that we might be able to make a greater contribution to the War effort and at the same time make preparation for Post-War Reconstruction.

The phenomenal production of farm commodities during the year 1942 has surpassed in quantity and value all previous records. In the production of certain live stock commodities this Province now occupies the first position in Canada. While there has been an abundant production from the farms, my Government is fully aware that due to unseasonable weather and deficiency in manpower and equipment, much of the harvesting has not yet been completed. It is sincerely hoped that favourable weather may yet permit the recovery of a substantial amount of such crops.

The demand for manpower in industry, and in the Armed Forces, has exhausted skilled farm labour to the point where the production of certain farm commodities may be jeopardized.

My Government, cognizant of this development, has, in co-operation with the Dominion Government, made special provision for the recruiting and transportation of labour to meet the needs of agriculture. In addition to this, a Committee has been appointed, representing various farmer and rural organizations, for the purpose of rendering more efficient agricultural services.

Alberta's agricultural programme is designed to render the maximum aid to Canada's wartime production. The increases registered in the production of coarse grains, forage crops, sugar beets, live stock and poultry products, indicate that the farmers of Alberta are loyally aiding the Empire in providing its food requirements.

My Government is fully appreciative of the possible expansion of agriculture during the war and post-war period, also its vital position in the economy of the Province. My Government is, therefore, giving consideration to providing for expansion of many of the services which are vital to the successful development of agriculture, including agricultural education and the improvement of field crops and live stock.

My Government proposes to train as many nurses as possible in the Kenny Method of treating paralysis from poliomyelitis.

The free Diagnostic and Treatment Cancer Clinics will be carried on and the service extended to free hospitalization of all cases referred for surgical treatment by the Clinic.

My Government will ask you to approve of an expenditure to purchase the necessary equipment for a Blood Plasma Plant for the University Laboratory so that dried blood plasma can be supplied to all hospitals in the Province at cost.

My Government intends to increase the number of district nurses during the coming year and to enlarge the scope of their usefulness by giving them special training in therapeutics and obstetrical work.

To provide for the increased number of patients in the early stages of Tuberculosis being discovered by the careful checking of all recruits for the Armed Forces, my Government proposes to build a new 300 bed Sanatorium.

The policy of my Government is to extend preventive health services by organizing more Health Units as rapidly as the services of doctors and nurses can be obtained.

Pursuant to a resolution of the Legislative Assembly, a representative committee of the House was appointed for the purpose of receiving representations and recommendations, as to the operations of The Workmen's Compensation (Accident Fund) Act. The committee has completed its investigation and its report will be presented to the House for your consideration.

My Government has been faced with the problem of finding teachers suitably qualified to fill the vacancies created by enlistments in the Armed Forces and other services. Letters of authority have been granted to persons with academic and professional qualifications from outside the Province to teach, while teachers who were holding lapsed Second Class permanent certificates within the Province were allowed to carry on. Attractive salaries paid in other occupations can only be met by a substantial increase in teachers' salaries which raises, of course, inevitable financial problems. As our growing generation is our Nation's greatest asset, it is the intention of my Government to improve and extend our educational standards as far as possible.

The opening of the mineral areas of the North, and the growing realization of Alberta's vast potential resources have given added importance to the Industrial development of the Province. The past year has been marked by substantial progress in this field. Commercial Egg Drying Plants in Edmonton and Calgary have been constructed and put into operation to conserve ocean shipping space in serving Great Britain's food needs. A considerable number of smaller Industries have shown healthy signs of progress.

While the field of Provincial Labour Relations has been invaded by the national war labour policy, my Government intends to continue its policy of safeguarding the best interests of Labour, while, at the same time, having due regard for the rights of Employers. Further legislation to this end will be submitted for your consideration during the Session.

My Government will continue to encourage and assist the orderly extension of Co-operative Organizations and Credit Unions. The past year has been marked by substantial progress in these fields. Seventeen new Co-operative Associations have

been formed, including important Groups dealing in the feeding and shipping of live stock, and the marketing of poultry products. Twenty-seven new Credit Unions have been chartered. This programme will be expanded during the coming year.

The present policy of my Government in the distribution of Implement parts, and repairs for farm machinery will be continued for the purpose of reducing costs to primary producers. It is also the intention of my Government to continue to expand the operation of the Alberta Government Insurance Office which has again completed a very successful year.

The operation of the five trial large municipal units established in 1942, have proved so successful that my Government proposes to continue with this programme during the coming year for the purpose of extending still further the benefits of this reorganization.

The recent decision of the Privy Council on The Debt Adjustment Act, has left this Province in the position that the Dominion Government alone has constitutional authority to pass legislation for the purpose of enforcing an adjustment of debts, by way of a reduction in principal or interest on the basis of ability to pay. In 1942 representations were made to the Dominion Government by the Governments of the Provinces of Manitoba, Saskatchewan and Alberta requesting legislation of a permanent nature to effect a satisfactory settlement of farm debts. My Government proposes to continue pressing for this legislation and to submit other measures for your consideration.

In preparation for Post-War Reconstruction my Government intends to pursue a progressive policy for the encouragement and assistance of Industrial development to the end that Alberta's potential resources may be utilized for the good and welfare of our people.

The Research Council of Alberta has been re-established on an active basis. A number of important matters will be investigated by the Council during the year, including the possibilities of rural electrification throughout the Province.

My Government is convinced that if we are to gain and enjoy the things for which we are fighting, it is imperative that careful preparations should be made now to relieve our people of the evils and inequalities of the pre-war system. With this in mind the Government is determined to press forward with a post-war programme, and to encourage the development of our natural resources in accordance therewith.

It is deemed essential that adequate preparation should be made now to deal with Post-War needs of reconstruction, and with the rehabilitations of the fighting forces as well as those engaged in other wartime services. You will be asked to consider legislation setting up a committee with power and instruction to survey the entire field of Post-War Reconstruction, as it affects the Province; and to act in co-operation with the Federal and other Provincial authorities in formulating the policies and measures necessary to deal with the problems involved.

The public accounts of the fiscal year will be submitted for your consideration. You will also be asked to consider the estimates for the coming year which have been prepared with a view to the strictest economy consistent with the wartime conditions and the requirements of Public Services.

I pray that the blessing of Divine Providence may rest upon your labours and that the result of your deliberations may be in the best interests of the Province.

His Honour the Honourable the Lieutenant Governor then retired from the Assembly.

Mr. Speaker requested the Clerk to read the Certificate of Election which had been delivered to him from the Clerk of the Executive Council.

The Clerk of the Legislative Assembly read the following certificate which had been delivered to him by the Clerk of the Executive Council:

Moved by Hon. Mr. Maynard, seconded by Mr. Mahaffy:

WHEREAS, the Privy Council has recently declared that The Alberta Debt Adjustment Act is ultra vires the legislative jurisdiction of the provinces, thus declaring in effect that the Dominion Government alone has the constitutional authority to enact legislation providing for the compulsory adjustment of farm debts based on the ability of the farmers to pay; and

WHEREAS, at an Inter-Provincial Debt Conference held in Saskatoon on June 29 and 30, 1942, representatives of the governments and the farm organizations of the Provinces of Manitoba, Saskatchewan and Alberta have unanimously adopted the following resolution, namely:

"WHEREAS, the agricultural industry in Western Canada is required to carry on under an economic structure in which its costs are fixed, and its production is subject to all of the hazards of Nature, and the fluctuations of open world's markets, and its income in consequence is extremely variable and incapable of being accurately forecast; and

"Whereas, the exigencies of war have determined the Government of Canada to dispose during the war of the output of the main agricultural product of Western Canada at a price which nets the farmer little, if any, surplus above the cost of production, available for the reduction of debt; and

“WHEREAS, the price ceilings imposed by the Federal Government for the purpose of avoiding inflation were imposed on goods and services in certain other areas of Canada after the prices for these goods and services had risen under the impetus of war spending; but price levels for western farm products and services had received relatively little impetus from war spending before being subjected to the price ceiling plan; and

“WHEREAS, recent judicial decisions of the Courts of Canada have determined that many of the legislative enactments which have made it possible for western farmers to continue their operations in the face of the recited conditions are beyond the power of the legislatures of the provinces to enact; and

“WHEREAS, the rights which the creditors are now entitled to enforce were created in circumstances in which debtors and creditors alike assumed abilities to pay which subsequent economic and natural conditions have demonstrated to be incapable of attainment; and

“WHEREAS, The Farmers’ Creditors Arrangement Act was passed in 1934 for the purpose of relieving against what was believed to be the consequences of a temporary condition of economic and natural disaster, and has served in common with provincial enactments now found to be ultra vires, to give a measure of relief from such consequences; and

WHEREAS, the Dominion Department of Labour, through its National Selective Service Department, has, by blanket order, prohibited the employment of Canadian workers by United States firms engaged in certain projects in Canada of vital importance to the defence of Alaska and the Canadian West; and

WHEREAS, the said order is unwise and discriminatory against Canadian workers in that it prohibits them from engaging in work of vital importance to Canada irrespective of whether or not their services are required by Canadian employers for more essential employment; therefore

BE IT RESOLVED, that this Legislature request the Dominion Government to cancel the said National Selective Service Order for the following reasons:

1. It is unnecessary in that National Selective Service has the power to refuse permits in individual cases where the worker's services are more urgently required in his present employment, or in some other essential Canadian project.
2. It is injurious to the harmonious relationship between Canadian and United States workmen, and definitely detrimental to Canadian unity and to employer-employee relationships.
3. It violates the democratic right of workmen to choose their individual employment provided that the safety of the State is not jeopardized thereby.
4. It constitutes an unjustifiable discrimination against Canadian workmen.
5. It interferes with the securing of necessary workmen for projects which are of vital importance to the defence of Western Canada.

AND BE IT FURTHER RESOLVED, that any arrangements entered into between the Dominion Government and the United States authorities in respect to American projects undertaken in Canada should provide for equal pay for equal work as between Canadian and United States workmen.

The Hon. Mr. Aberhart, a Member of the Executive Council, by command of His Honour the Honourable the Lieutenant Governor, laid on the table of the Assembly, Annual Report of the Civil Service Commissioner for the year ending December 31st, 1942.

*(Sessional Paper No. 17.)*

The Order of the Day being read for continued debate on the following motion:

Moved by Mr. James, seconded by Mr. DeBolt:

WHEREAS, the Dominion Department of Labour, through its National Selective Service Department, has, by blanket order, prohibited the employment of Canadian workers by United States firms engaged in certain projects in Canada of vital importance to the defence of Alaska and the Canadian West; and

WHEREAS, the said order is unwise and discriminatory against Canadian workers in that it prohibits them from engaging in work of vital importance to Canada irrespective of whether or not their services are required by Canadian employers for more essential employment; therefore

BE IT RESOLVED, that this Legislature request the Dominion Government to cancel the said National Selective Service Order for the following reasons:

1. It is unnecessary in that National Selective Service has the power to refuse permits in individual cases where the worker's services are more urgently required in his present employment, or in some other essential Canadian project.
2. It is injurious to the harmonious relationship between Canadian and United States workmen, and definitely detrimental to Canadian unity and to employer-employee relationships.
3. It violates the democratic right of workmen to choose their individual employment provided that the safety of the State is not jeopardized thereby.
4. It constitutes an unjustifiable discrimination against Canadian workmen.
5. It interferes with the securing of necessary workmen for projects which are of vital importance to the defence of Western Canada.

AND BE IT FURTHER RESOLVED, that any arrangements entered into between the Dominion Government and the United States authorities in respect to American projects undertaken in Canada should provide for equal pay for equal work as between Canadian and United States workmen.

The debate continued.

The motion being proposed Mr. Speaker declared the motion carried.

Moved by Mr. MacLachlan, seconded by Mr. McKinnon:

WHEREAS, there is a large surplus of coarse grains in farmers' hands in Alberta at the present time that can not be disposed of because of the quota system and the lack of local demand; and

WHEREAS, there is an immediate market in the United States for coarse grains for feed at a much higher price than the ceiling price prevailing in Canada; therefore

BE IT RESOLVED, that this Legislative Assembly of Alberta request the Dominion Government to remove all restrictions on the export of coarse grain to the United States; and

THAT the present ceiling price on such export grain be removed so that farmers may secure the increased price prevailing in the United States; and

FURTHER, that the Dominion Government endeavour by such reciprocal action as may be deemed advisable to have the present import tax of eight cents per bushel imposed by the United States Government removed; and

THAT a copy of this resolution be forwarded to the Prime Minister of Canada.

A debate followed.

The motion being proposed Mr. Speaker declared the motion carried unanimously.

Moved by Mr. Walker, seconded by Mr. Jackson:

WHEREAS, owing to the shortage of elevator space and the small amount of wheat that could be delivered under the fourteen bushel quota; and

WHEREAS, millions of bushels of wheat that have been threshed are now stored in cone shaped piles in the field and in open bins, both of which are exposed to the elements and in many cases are now spoiling; therefore

BE IT RESOLVED, that this Legislative Assembly of Alberta request the Dominion Government to give priority to the moving of this grain to a point where it can be treated for dampness so that the grain will not be a total loss, and also grant priority for materials to build granaries for the storage of this and future crops; and

THAT a copy of this resolution be forwarded to the Prime Minister of Canada.

A debate followed.

The motion being proposed Mr. Speaker declared the motion carried unanimously.

Moved by Mr. Roper, seconded by Mr. Morrison:

WHEREAS, a certain percentage of the graduates from the Commonwealth Air Training Plan are graduated as commissioned officers while the remainder only receive non-commissioned rank; and

WHEREAS, this creates an unjustifiable distinction between men who perform the same duties and shoulder the same responsibilities; and

WHEREAS, by the nature of their services a proportion of the members of the Air Force are required to land on enemy territory and there is discrimination in treatment between officers and non-commissioned officers as prisoners of war; therefore

BE IT RESOLVED, that this Legislative Assembly of Alberta go on record as being of the opinion that all graduates from the Commonwealth Air Training Plan be granted equal rank as officers and promotions thereafter be according to responsibility, merit and service; and

BE IT FURTHER RESOLVED, that a copy of this resolution be forwarded to the Prime Minister of Canada.

A debate followed.

The Hon. Mr. Maynard moved, seconded by the Hon. Mr. Fallow, that the subject be referred to the Committee on Agriculture, Colonization, Immigration and Education.

The debate continued.

The Hon. Mr. Maynard's motion being proposed Mr. Speaker declared the "Ayes" have it.

The motion was therefore referred to the Committee on Agriculture, Colonization, Immigration and Education.

Moved by Mr. R. S. Lee, seconded by Mr. Hartley:

WHEREAS, sugar is an essential commodity, the great bulk of which must at the present time be imported into Canada; and

WHEREAS, the importation of sugar during War time involves the use and loss of ships and men more urgently required for the transportation of vital War materials; and

WHEREAS, the importation of sugar into Canada could be greatly reduced by the expansion of the Sugar Beet Industry for which certain areas of Alberta are particularly adapted; therefore

BE IT RESOLVED, that this Legislative Assembly urgently request the Dominion Government to take such immediate steps as may be necessary to establish at least one additional sugar factory in Alberta.

A debate followed.

The motion being proposed Mr. Speaker declared the motion carried unanimously.
